MATH & GEOGRAPHY LESSON THEN SHARE  
WHAT YOU LEARNED IN THE COMMENTS!**

# LESSON ONE

1. Have a look at this map of Germany. Can you fill in the names of the cities and stadiums where the UEFA EURO 2024™ football matches will be played?

2. Which two stadiums are furthest apart?

ANSWER:

How far apart are they?

ANSWER:

3. Which two stadiums are closest together?

ANSWER:

How far apart are they?

ANSWER:

4. To visit all ten stadiums in the shortest journey possible, what route would you take?

ANSWER:

NOTE FOR TEACHERS: FOR CALCULATING DISTANCES CHILDREN CAN EITHER USE THEIR RULER AND MEASURE DOT-TO-DOT ON THE MAP, OR IF YOU HAVE SAFE ACCESS TO THE INTERNET THE CHILDREN CAN BE ASKED TO USE A MAPPING TOOL TO DISCOVER THE TRUE DISTANCES.

## LESSON TWO

- Here are the twenty-four teams competing at EURO 2024:

Albania, Austria, Belgium, Croatia, Czechia, Denmark, England, France, Georgia, Germany, Hungary, Italy, Netherlands, Poland, Portugal, Romania, Scotland, Serbia, Slovakia, Slovenia, Spain, Switzerland, Türkiye, Ukraine.

- Can you use the official [EURO2024.com](https://euro2024.com) website to plot each team's journey for their three group stage games?

COUNTRY	CITY ONE	CITY TWO	CITY THREE
Albania			
Austria			
Belgium			
Croatia			
Czechia			
Denmark			
England			
France			
Georgia			
Germany	MUNICH	STUTTGART	FRANKFURT
Hungary			
Italy			

COUNTRY	CITY ONE	CITY TWO	CITY THREE
Netherlands			
Poland			
Portugal			
Romania			
Scotland			
Serbia			
Slovakia			
Slovenia			
Spain			
Switzerland			
Türkiye			
Ukraine			

## LESSON THREE: MAKE MOVES!

- **Activity Overview:**

This activity combines physical exercise with learning about geography and the UEFA EURO 2024. Students will create a scale model of the tournament's stadium locations in the gym using cones or markers.

- **Setup:**

Children will work in pairs, choosing a football team participating in EURO 2024. They will simulate the team's journey across the map, visiting stadiums in the order of their matches.

- **Movement Component:**

Travel between stadiums involves various movements like walking, running, or pretending to ride a train.

Each pair can then collect a football and dribble between each venue. Roles switch at each stadium, alternating between 'navigator', who leads the way, and 'ball manager', who dribbles the ball.

Pairs can then pass a ball to each other, using either hands or feet, as they move from one stadium to the next.

**HOW DID YOU DO?**

**DON'T FORGET TO SHARE YOUR EXPERIENCE IN  
THE COMMENTS.**
